DOER Green Communities
Webinar

January 8, 2014

Behavioral Energy Efficiency Programs

Green Communities Division

Serves as the hub for all Massachusetts cities and towns on energy matters

Green Communities Division Programs & Resources for Municipalities

Green Communities Designation and

- Grant Program
- MassEnergyInsight energy tracking tool
- Municipal Energy Efficiency Program

- Energy Management Services Technical Assistance (EMS)
- Mass Municipal Energy Group (MMEG)
- Website filled with tools & resources www.mass.gov/doer
- Email updates via listserv Sign up by sending an email to: join-ene-greencommunities@listserv.state.ma.us

Outreach - Regional Coordinators

- Regional Coordinators act as direct liaisons with cities and towns on energy efficiency and renewable energy activities
- Located at each of the DEP Regional Offices:

SERO – LAKEVILLE: Seth Pickering Seth.Pickering@state.ma.us

NERO – WILMINGTON: Joanne Bissetta Joanne.Bissetta@state.ma.us

WERO – SPRINGFIELD: Jim Barry Jim.Barry@state.ma.us

Recording & Presentation

 The webinar is being recorded and will be available on our website in approximately 48 hours at:

www.mass.gov/energy/greencommunities

- The slide presentation will also be posted at: <u>www.mass.gov/energy/greencommunities</u>
- Website and contact information is listed at end of presentation

Considerations on Behavioral Energy Efficiency Programs

Aimee Powelka

Municipal Efficiency Coordinator Green Communities Division, DOER

Behavior # Education & Awareness

- Energy education has been ongoing since 1970s energy crisis, yet there are still lots of efficiency opportunities (i.e., energy waste)
- Why not efficiency?
 - Awareness
 - Barriers
 - Benefits

Residential Behavioral Programs Look Promising

- Behavioral programs have been shown to be cost-effective
- MA utilities are using programs such as OPower (CLC and NGrid)
- Behavioral programs have significant potential

Back to National Stats

Source: www.opower.com/beepotential

MA Utilities Are Using Residential Behavioral Programs

	Program Administrator	Implementer	Cohort	Fuel Type	
	National Grid	OPOWER	2009	Electric	
Ц	National Grid	OPOWER	2009	Electric	
	National Grid	OPOWER	2010	Electric	
	National Grid	OPOWER	2010	Electric	
	National Grid	OPOWER	2010 Add Electric		
	National Grid	OPOWER	2011 Electr		
	National Grid	OPOWER	2009 Gas		
	National Grid	OPOWER	2009	Gas	
	National Grid	OPOWER	2010 Gas		
	National Grid	OPOWER	2011	Gas	
	NSTAR	OPOWER	Wave I	Wave I Gas	
	NSTAR	OPOWER	Wave II Gas		
	WMECO	СЗ	Report- Passive	Electric	
	WMECO	C3	Report- Active	Electric	
	WMECO	C3	No Report - Active	Electric	

- National Grid, NSTAR and WMECO have piloted and/or are using residential behavioral programs
- Evaluation report published July 2012
- Key findings:
 - Opt-in programs generate higher relative savings per household
 - Opt-out programs save more overall due to greater reach
 - Electric programs generate more savings, on average, than gas programs using the same model
 - Energy savings persist and GROW with continued treatment into 2nd year

Behavioral Program Steps

FIGURE 2 OVERVIEW OF ENERGY STAR GUIDELINES FOR ENERGY MANAGEMENT

The ENERGY STAR Guidelines for Energy Management presents a seven-step approach to achieving superior energy management and savings across a portfolio of buildings.

- Take the time to plan it takes a lot of time
- Understand your stakeholders don't talk at people, have them help you create the program
- Identify barriers ask "why" questions
- Choose something you can measure
- Evaluate
- Reward
- Repeat

Key Strategies for Commercial Behavioral Programs

- Strong support from upper management
- Program branding
- Building a team with stakeholders
- Peer champions from building occupants
- Many and varied communication tools
- Engagement techniques such as feedback, benign peer pressure, competition, rewards and reference to social norms

Goals

Reduce energy consumption in City facilities

Save money

Minimize City's environmental footprint

Advance City's role as a "green" leader

The Case for Energy Awareness

5 to 15% energy use is under occupant control

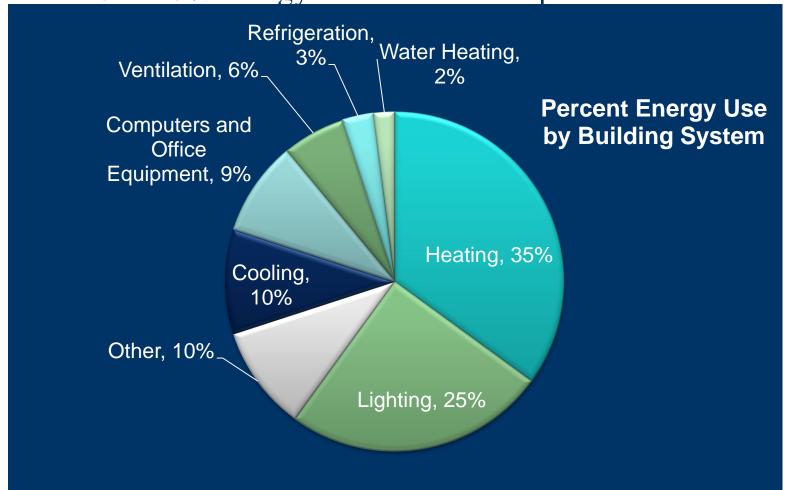

Chart: EERE Advanced Energy Retrofit Design Guide for Office Buildings, 2011

- Planning Stage
 Planning group from several departments: "Understand your stakeholders"
- Requires staffing! Led by DPW
- Takes time! Met regularly for several months.

Branding

Use Less. Gain More.

Select Target Behavior

Measurable

Keep it Simple

Surveyed 10 buildings after hours:

- Fire HQ
- Office building

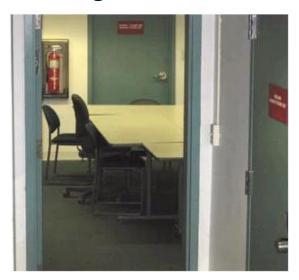

- Branch library
- Public Works garage

Findings

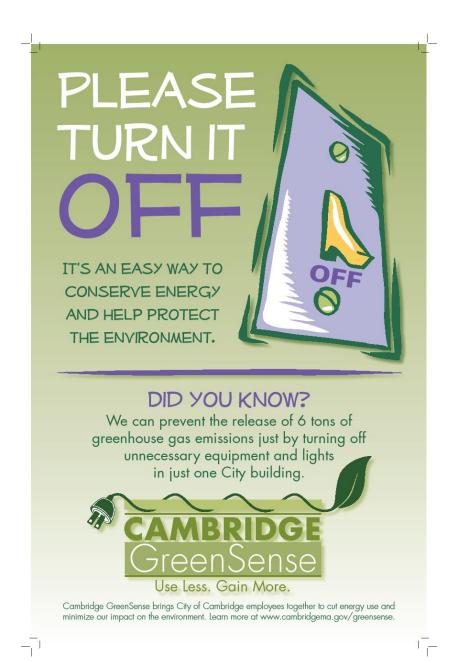

Lights on after-hours:

- Common areas
- Hallways
- Stairwells
- Restrooms
- Kitchen areas
- Offices
- Computers on after hours:
 - 53% computers on
 - 46% monitors on

Implemented

- * Support from upper management
- Volunteer Energy Champions
- Kick off meeting City Manager welcome
- ★ Two options AM/PM
- Supplies:

Multiple sources incl. Cross Shifting Assachusetts Multicipalities Create Acceaner Energy Future;

Board or interview: Pierce interview.

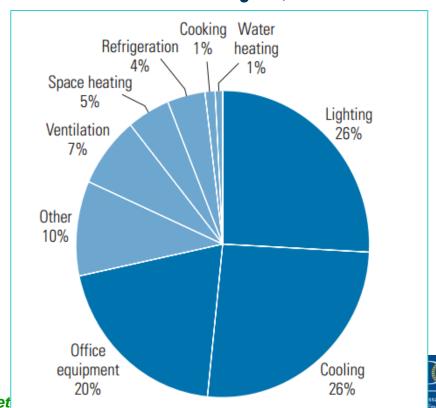

ENERGY USE IN SCHOOLS

(and other "commercial" buildings):

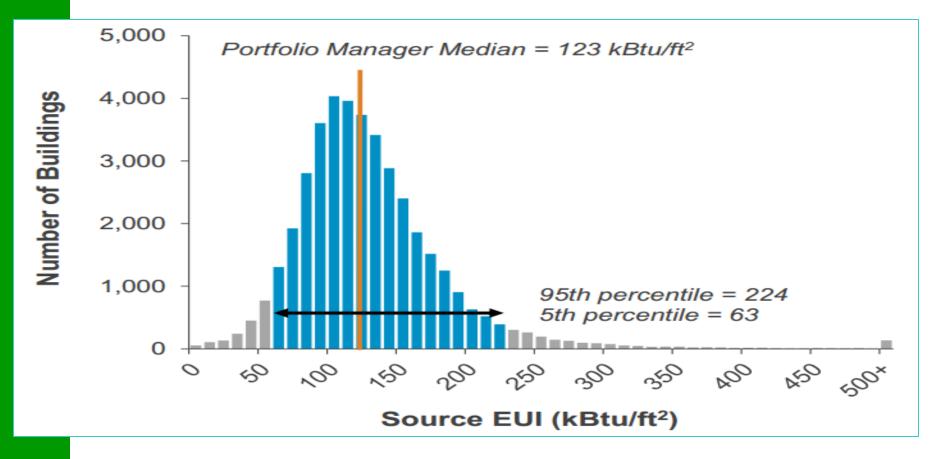

- **HVAC**
- Lighting (25-50% of electricity)
- Plug load (25% of electricity?)

The chart shows a sample profile of electricity use within a school. Actual data will differ depending on location & climate.

JS EPA, Energy Star Building Upgrade Manual (2008)

The least efficient school buildings use four times more energy per square foot than the most efficient ones. Older schools can sometimes be very energy efficient the way in which a school building is managed has a big influence on how it stacks use the least of the least efficient which a school building is managed has a big influence on how it stacks use the least efficient which is the l

BENEFITS OF BEHAVIOR-BASED

- **COST SAVINGS**
- REDUCED ENVIRONMENTAL IMPACT
- LEARNING & LEADERSHIP

Helping Massachusetts Municipalities Create A Cleaner Energy Future

EFFECTIV E PROGRAM S

SCHOOL DYNAMICS

Committed <u>faculty/staff leader(s)</u>

- Principal/administrator: essential support & endorsement
- Student engagement: energy, creativity, positive focus
- Custodial staff included

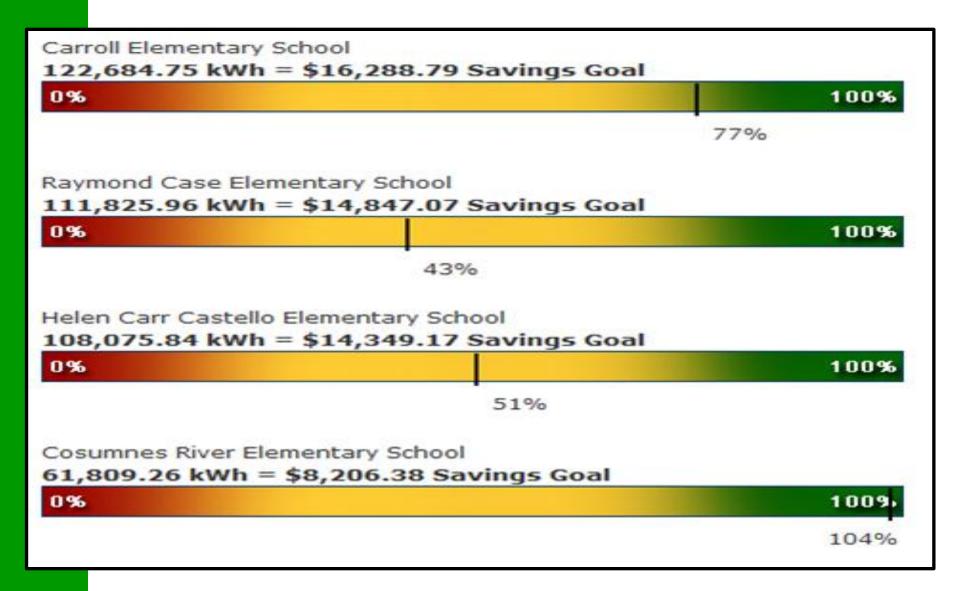

DISTRICT SUPPORT

- Essential support: Tracking energy use → sharing feedback
- Additional support variable: recognition program, assistance with identifying priorities, signage, equipment loans, educational resources
- Can be homegrown or incorporate 3rd party assistance (emphasis on capacity-building and savings retained in district)

MOMENTUM

- Energy data cited by faculty/staff as compelling and strongly motivating
- Cost savings highly valued -> educational resources
 - Recognition highly valued Department of ENERGY RESOURCES Highly valued Massachusetts Municipalities Create A Cleaner Energy Future

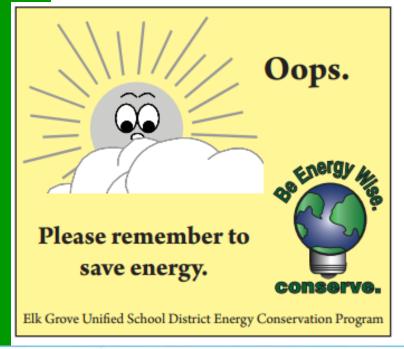

Energy data & progress toward goals in web-based format Ek Green Unified School District: www.egusd.net/energy/savin Helping Massachusetts Municipalities Create A Cleaner Energy Future

"Once [Facilities] was putting out the graphs showing how much we were saving each month, I think that was really key. People could see that last month we went down \$12,000 from the previous year, and all that we're doing is turning our lights out when we leave the room. So it made a big difference that people could see the **c**hanges."

Thank you for E=USING Energy Wisely!

- Your E=USE2 Patrol Team

Please recycle me.

The students leave notes as they check in the morning, like 'Thank you for turning your lights out.' It's just a reminder to teachers, and the teachers think it's fun and the kids get a kick out of it... When you come back and you get the note that you've been busted, you laugh about it but it does kind of put a little nugget in your head that says, kay, I really need to start doing this."

-Principal, Rosa Parks Elementary School

E=USE² Classroom Checklist
